JOIN THE **LE&RN** TEXAS CHAPTER!

The **Lymphatic Education & Research Network's** Texas Chapter connects people affected by lymphedema (LE) and lymphatic diseases (LD) across the state. The chapter's goal is to build community, increase awareness, educate, and raise funds for programs and research.

Please visit the LE&RN Texas Chapter website at <http://lymphaticnetwork.org/chapters/texas> for local resources and events.

To become involved, contact **Kathy and Joy** at TXChapter@lymphaticnetwork.org

The **Lymphatic Education & Research Network** has been fighting lymphedema (LE) and lymphatic diseases (LD) since 1998. Whereas millions suffer from these diseases, they are routinely undiagnosed or mistreated.

LE&RN is dedicated to fighting lymphatic diseases through education, research, and advocacy. We seek to accelerate the prevention, treatments, and cures for lymphedema, lipedema, lymphatic anomalies, and the continuum of lymphatic diseases.
